## AID4EVE

Due to dwindling job prospects for VET students and forced economic survival by changing job sectors, AID4EVE - APPS BASED INNOVATIVE DIGITAL TRAINING PLATFORM FOR ENHANCING VET EMPLOYABILITY partners feel motivated to develop a complementary competence training program to make a difference in VET trainees' employment journeys.

The pandemic and automation of lower skilled jobs have forced many people including VET students to rethink work and improve their chances to take on more leadership responsibilities, particularly for challenging work environments. This means VET students and apprentices will need greater opportunities to learn and develop universal skills linked to the future global economy, such as creativity and creative thinking; planning and problem solving linked to critical decision making.

AID4EVE aims to facilitate digital transformation in VET by creating a DIGITAL TRAINING PLATFORM for developing Universal Skills of VET students to support the employability of VET trainees by developing key competences aligned to job market needs.

## KICK OFF & ACTION PLANNING MEETING

The Kick off and Action Planning meeting was held in Hanau from the 29th -30th September 2022 with the participation of AID4EVE partners: ASPIRE Education Group GmbH from Germany, YAKACIK Vocational and Technical High School from Turkey and Meta4 Innovations e.U from Austria.

At the meeting, the project partners brought together their expertise and experience to set the features of the DIGITAL TRAINING PLATFORM (DTP) for developing Universal Skills of VET students to support their employability and planned the next steps.

The AID4EVE partners will meet again in Klagenfurt from the 2nd-3rd February 2023.
